HRIS Abstracts National Research Council (U.S.). Highway Research Information Service 1989

Practical Guide to Street Works Highway Authorities and Utilities Committee 2006-06-14 This publication contains practical good practice guidance for use by site operatives and supervisors involved with street works under the New Roads and Street Works Act 1991. This guide includes relevant reference material from the code of practice "Specification for the reinstatement of openings in highways" (2002, ISBN 0115525386) which has been approved under s. 71 of the 1991 Act, but this guide is not intended as a replacement or abbreviated version of the Code. The guide covers the process from signing and excavating issues to reinstating and leaving the finished site, and for each section information is given on specification details and key tasks, as well as health and safety issues.

Adventures & Letters of Richard Harding Davis Richard Harding Davis 2010-09-01 Renowned American journalist Richard Harding Davis helped define the genre of front-line reporting with his first-hand accounts of battlefield action in the Spanish-American war. Later, Davis went on to cover several additional conflicts in his inimitable style. Upon his return to the United States, he worked as a newspaper columnist for several prominent publications, where he tackled many of the toughest social issues of the day. This fascinating volume follows Davis's life on and off the battlefield.

Intelligent Soil Compaction Systems Michael A. Mooney 2010-01-01 TRB's National Cooperative Highway Research Program (NCHRP) Report 676: Intelligent Soil Compaction Systems explores intelligent compaction, a new method of achieving and documenting compaction requirements. Intelligent compaction uses continuous compaction-roller vibration monitoring to assess mechanistic soil properties, continuous modification/adaptation of roller vibration amplitude and frequency to ensure optimum compaction, and full-time monitoring by an integrated global positioning system to provide a complete GPS-based record of the compacted area--
