The River Wild Denis O'Neill 2017-06-06 Based on the blockbuster movie starring Meryl Streep and Kevin Bacon. To help heal a marriage on the rocks, river-rafting expert Gail, her husband Tom, and their son embark on a white water adventure in Montana. Along the way, they encounter two inexperienced rafters supposedly looking for their friends downriver. Little do they know that the men are escaped convicts whose bid for freedom has a body count. Things take a turn when the young family learns that they are now the captives of two armed killers, and it becomes clear that there is much more at stake than a marriage. Desperate to evade both the police and federal marshals, the men force the family down the river and into the mouth of a deadly class 5 white-water rapid. Careening towards

mortal peril, Gail and Tom must bond together to save their family from the brutality of nature and the savageness of man. This high-stakes thriller is both a testament to the power of mother nature and a classic adventure story that is perfect for fans of CJ Box and Craig Johnson. Denis O'Neill, the screenwriter for the movie *The River Wild*, brings the striking beauty of the film into his writing and ratchets up the danger that races forward to a breathtaking conclusion.

232 Bars: A Novel About Scuba, Ladyboys, and Living the Dream John Triggerfish 2017-11-25 John Triggerfish lost everything and decided to start a new life in paradise. It didn't quite work out that way, although the ladyboys were pretty interesting. This is his story about becoming a Padi diving professional and meeting all manner of characters on his travels around the wonderful Kingdom of Thailand. Then of course there's his relationship with all the women that he meets whilst cruising around the beaches and bars. That's pretty interesting/disturbing. Add in a few nutters from Blighty and some of the best diving on the planet, and you've probably got the funniest book about scuba ever written. *232 Bars* is NOT for the faint hearted. Please don't bother to read if easily offended.

Risk Management Handbook Federal Aviation Administration 2012-07-03

Every day in the United States, over two million men, women, and children step onto an aircraft and place their lives in the hands of strangers. As anyone who has ever flown knows, modern flight offers unparalleled advantages in travel and freedom, but it also comes with grave responsibility and risk. For the first time in its history, the Federal Aviation Administration has put together a set of easy-to-understand guidelines and principles that will help pilots of any skill level minimize risk and maximize safety while in the air. The Risk Management Handbook offers full-color diagrams and illustrations to help students and pilots visualize the science of flight, while providing straightforward information on decision-making and the risk-management process.

Diving Equipment Jonas Arvidsson 2016-06-28 Diving Equipment: Choice, maintenance and function is a solid introduction to how diving gear works.

It details the choices divers are faced with, and gives tips to help ensure it will last. If you want to better understand diving kit without having to dismantle it this book is the answer. It is filled with colourful illustrations and explanations of the hidden inner workings. Although it is therefore of obvious benefit to newer divers, Diving Equipment will also be of interest to qualified divers. Divemasters, instructors, those in need of a refresher and any non-diver who is curious about diving equipment are all likely to find out things they did not previously know. This book covers a wide range of diving gear including: accessories, BCDs, computers, cylinders, drysuits, fins, gauges, masks, rebreathers, regulators, sidemount, snorkels, stages, torches, weights, wetsuits, wings and more... Although many of the dives we make are in tropical regions, Diving Equipment takes an international perspective. It covers a range of conditions; discusses laws and regulations in different parts of the world; suggests what to look out for and what to ask locals about. If we are curious, we are often directed to look at manufacturers' websites, with their limited descriptions of how equipment really works. This book aims to plug the gap. Diving Equipment also includes some less common and older items for interest and historical comparison, and finishes with some speculation on what the future might bring. Reviews 'A must-have for newly qualified divers, but this excellent book shouldn't be dismissed by those with more experience as a

publication on the basics – it offers far more than that. The vast majority of us would benefit from a deeper understanding of the dive-gear on which we rely so heavily, what it does, how it works and how it should be used and maintained. This volume delivers such information in spadeloads, and should be on every diver's bookshelf'– Diver magazine (read full review) 'Some books you read and pass on, but this is one to keep and refer back to for many years to come'– British Diver (read full review) 'One of the few diving titles out there that everyone should own and, in my view, should be a required text for those diving professionals working in instruction, supervision or sales'– Steve Warren, INON UK (read full review) 'First thing I have to say about this book is that every sports diver should have one... Diving gear is not cheap and can become a serious investment, so knowing what to choose and how best to ensure its long and reliable life is to my mind definitely worth the cost of this book'– Scubaverse Second Edition of Diving Equipment This English-language second edition has been completely re-edited and enhanced. Originally published in Swedish in paperback and ebook, and in English as an ebook.

Fire in the Straw Nick Lyons 2020-10-27 **Named One of the New York Post's Best New Books to Read ** FIRE IN THE STRAW is the witty and

deeply felt memoir of Nick Lyons, a man with an intrepid desire to reinvent himself—which he does, over and over. Nick Lyons shape shifts from reluctant student and graduate of the Wharton School, to English Professor, to husband of a fiercely committed painter, to ghost writer, to famous fly fisherman and award-winning author, to father and then grandfather, to Executive Editor at a large book publishing company, and finally to founder and publisher of his own successful independent press.. Written with the same warm and earthy voice that has enthralled tens of thousands of fly-fishing readers, Nick weaves the disparate chapters of his life: from the moment his widowed mother drops him off at a grim boarding school at the age of five, where he spends three lonely and confusing years; to his love of basketball and pride playing for Penn; to the tumultuous period, in the army and after, when he found and was transformed by literature; to his marriage to Mari, his great love and anchor of his life. Suddenly, with a PhD in hand and four children, Nick embarks on a complex and thrilling ride, juggling family, fishing, teaching, writing, and publishing, the wolf always at his door. Against all odds, The Lyons Press survives, his children prosper, his wife's art flourishes, and his books and articles make him a household name. Fire in the Straw is a love story, a confessional, and a beautiful big-hearted memoir.

New Frontiers in Marine Tourism Brian Garrod 2007-08-31 'New Frontiers in Marine Tourism' is the first book of this kind to address and analyse this burgeoning tourism sector comprehensively. By integrating aspects such as the sustainability, safety, education, experiences and management of diving tourism the text highlights a variety of pressing topics related to the

management of diving tourism, including: * different types of diving locations and their particular characteristics and the geographical distribution of dive locations * the growth and economic significance of diving tourism in destinations worldwide * different motivations and typologies of diving tourists, their learning behaviour, knowledge of marine environments, and their interaction with flora and fauna. * diver satisfaction, attitudes and preferences, education and interpretation, and compliance with regulations * environmental impacts, and aspects of risk and health.

Intersection Man Hari Kumar Nair 2015-08-05 The year is 2025. Levan Lamarr, a former Marine, is dying of cancer. His wife, Mira, is pregnant and due to deliver their first child in a week. A mysterious scientist named Dr. Jonah Salter contacts the Lamarrs and offers Levan a probable cure. The scientist's device, the Entangler, can, in theory, restore the patient's health. Bheem, his trusted Artificial Intelligence, aids Dr. Salter during the reset process. During the healing procedure, the device creates a Quantum Entanglement between two of Levan's bodies, each of which is in a parallel universe. Both bodies share a single consciousness. This entanglement is expected to last a few days. Levan, who is cured, perceives both universes superimposed. The two universes are identical until Dr. Salter creates a divergence. But a series of unexpected events follow and things go horribly wrong.

Elasmobranch Biodiversity, Conservation and Management Sarah L. Fowler 2002 The Darwin Elasmobranch Biodiversity Conservation and Management project in Sabah held a three-day international seminar that included a one-day workshop in order to highlight freshwater and coastal elasmobranch conservation issues in the region and worldwide, to disseminate the result of the project to other Malaysian states and countries, and to raise awareness of the importance of considering aspects of elasmobranch biodiversity in the context of nature conservation, commercial fisheries management, and for subsistence fishing communities. These proceedings contain numerous peer-reviewed papers originally presented at the seminar, which cover a wide range of topics, with particular reference to species from freshwater and estuarine habitats. The workshop served to develop recommendations concerning the future prospects of elasmobranch fisheries, biodiversity, conservation and management. This paper records those conclusions, which highlight the importance of elasmobranchs as top marine predators and keystone species, noting that permanent damage to shark and ray populations are likely to have serious and unexpected negative consequences for commercial and subsistence yields of other important fish stocks.

Unstoppable Yanni Raz 2016-06-09 Unstoppable is a word defined as "difficult or impossible to preclude or stop." As a human quality, it is something that we associate with people such as sports superstars, those who do whatever it takes to inspire others and lead teams to the greatest of victories. Sometimes, an idea or person can become unstoppable. Unstoppable, like Charles Lindbergh crossing the Atlantic in a solo flight when no one had thought it was possible, or track star Roger Bannister breaking the four-minute mile barrier. Not everyone can be an explorer or a great athlete, but anyone can be unstoppable in their chosen endeavors in life. If you are willing to possess an unwavering determination to succeed and a consistent willingness to learn and evolve, you can become unstoppable and triumph too. This book is about a personal struggle, one in which the author awoke from a coma after a terrible accident and faced a life of permanent paralysis. A long battle of driven determination resulted in Yanni Raz regaining his health and becoming a self-made millionaire after migrating from his native Israel to the United States. Through careers as a musician, a Starbucks barista, a salesman, a real estate whiz, a professional poker player and a hard money lender, Yanni learned reliable principles and the skills necessary for success. Unstoppable covers many

topics including controlling your life, making the best decisions, creating new opportunities, properly assessing signals, expertly negotiating, and succeeding by storytelling across the media landscape. You'll learn about integrity in business, asset diversification, and many other life tips that thousands of people learn from Yanni on a daily basis. It is time to become fearless and lead a powerful life. With Yanni's new book *Unstoppable*, you can do just that.

Turning Back The Sun Colin Thubron 2012-02-29 Far away from the city of his birth, in a frontier town on the edge of tribal wilderness, a doctor tries to resolve the seemingly unreconcilable demands of his public career and his personal feelings. He believes his exile here to be temporary, and youthful memories of the distant city torment him with an unbearable sense of loss. Yet he has grown to love a fellow exile, a woman of fierce independence and strong will, who belongs by nature to the warmth and chaos of the frontier? But, during a summer of drought and disease, the desert erupts into savagery and he is at last confronted by the choice of returning to the city or of remaining with her.
