**Economics** Daron Acemoglu 2017 For courses in Principles of Economics. An evidence-based approach to economics

Throughout Economics, 2nd Edition, authors Daron Acemoglu, David Laibson, and John List use real economic questions and data to help readers learn about the world around them. Taking a fresh approach, they use the themes of optimization, equilibrium, and empiricism to not only illustrate the power of simple economic ideas, but also to explain and predict what's happening in today's society. Each chapter begins with an empirical question that is relevant to the life of a reader, and is later answered using data in the Evidence-Based Economics feature. As a result of the text's practical emphasis, readers learn to apply economic principles to guide the decisions they make in their own lives. Also available with MyLab Economics MyLab(tm) Economics is an online homework, tutorial, and assessment program designed to work with this text to engage students and improve results. EM Material Characterization Techniques for Metamaterials Raveendranath U. Nair 2017-09-21 This book presents a review of techniques based on waveguide systems, striplines, freespace systems and more, discussing the salient features of each method in detail. Since metamaterials are typically inhomogeneous and anisotropic, the experimental techniques for electromagnetic (EM) material characterization of metamaterial structures need to tackle several challenges. Furthermore, the modes supported by metamaterial structures are extremely sensitive to external perturbations. As such the measurement fixtures for EM material characterization have to be modified to account for such effects. The book provides a valuable resource for researchers working in the field of metamaterials
