Someday, Someday, Maybe Lauren Graham 2013-04-30 NEW YORK TIMES BESTSELLER • From Lauren Graham, the beloved star of *Gilmore Girls* and *Parenthood*, comes a witty, charming, and hilariously relatable debut novel about a struggling young actress trying to get ahead—and keep it together—in New York City. It's January 1995, and Franny Banks has just six months left of the three-year deadline she set for herself when she came to New York, dreaming of Broadway and doing "important" work. But all she has to show for her efforts so far is a part in an ad for ugly Christmas sweaters, and a gig waiting tables at a comedy club. Her roommates—her best friend Jane, and Dan, an aspiring sci-fi writer—are supportive, yet Franny knows a two-person fan club doesn't exactly count as success. Everyone tells her she needs a backup plan, and though she can almost picture moving back home and settling down with her perfectly nice ex-boyfriend, she's not ready to give up on her goal of having a career like her

idols Diane Keaton and Meryl Streep. Not just yet. But while she dreams of filling their shoes, in the meantime, she'd happily settle for a speaking part in almost anything—and finding a hair product combination that works. Everything is riding on the upcoming showcase for her acting class, where she'll finally have a chance to perform for people who could actually hire her. And she can't let herself be distracted by James Franklin, a notorious flirt and the most successful actor in her class, even though he's suddenly started paying attention. Meanwhile, her bank account is rapidly dwindling, her father wants her to come home, and her agent doesn't return her calls. But for some reason, she keeps believing that she just might get what she came for. *Someday, Someday, Maybe* is a story about hopes and dreams, being young in a city, and wanting something deeply, madly, desperately. It's about finding love, finding yourself, and perhaps most difficult of all in New York City, finding an acting job. Praise for *Someday, Someday, Maybe* "A winning, entertaining read . . . [Lauren Graham] has smartly mined just the right details from her own experience, infusing her work with crackling dialogue and observations about show business that ring funny and true."—The Washington Post "A charmer of a first novel . . . Graham demonstrates that her acting chops are not her only talent."—Library Journal "Thoroughly charming."—Entertainment Weekly "Sweet, funny, and full of heart . . . a dazzling debut."—Emily Giffin, New York Times bestselling author of *Something Borrowed* and *Where We Belong* "Warm and funny, charming and smart."—Diane Keaton, New York Times bestselling author of *Then Again* "Graham deftly captures what it's like to be young, ambitious, and hopeful in New York City."—Candace Bushnell, New York Times bestselling author of *Sex and the City* and *The Carrie Diaries* "Fresh and funny and full of zingers, Lauren Graham's charming writing style instantly drew me in."—Meg Cabot, bestselling author of the *Princess Diaries* and *Heather Wells Mystery* series

The Geography of You and Me Jennifer E. Smith 2014-04-15 Lucy lives on the twenty-fourth floor. Owen lives in the basement. It's fitting, then, that they meet in the middle -- stuck between two floors of a New York City apartment building, on an elevator rendered useless by a citywide blackout. After they're rescued, Lucy and Owen spend the night wandering the darkened streets and marveling at the rare appearance of stars above Manhattan. But once the power is back, so is reality. Lucy soon moves abroad with her parents, while Owen heads out west with his father. The brief time they spend together leaves a mark. And as their lives take them to Edinburgh and to San Francisco, to Prague and to Portland, Lucy and Owen stay in touch through postcards, occasional e-mails, and phone calls. But can they -- despite the odds -- find a way to reunite? Smartly observed and wonderfully romantic, Jennifer E. Smith's new novel shows that the center of the world isn't necessarily a place. Sometimes, it can be a person.

Breaking Boundaries Johan Rockström 2021-05-06 On the brink of a critical moment in human history, this book presents a vision of "planetary stewardship" - a rethinking of our relationship with our planet - and plots a new course for our future. The authors reveal the full scale of the planetary emergency we face - but also how we can stabilize Earth's life support system. The necessary change is within our power, if we act now. In 2009, scientists identified nine planetary boundaries that keep Earth stable, ranging from biodiversity to ozone. Beyond these boundaries lurk tipping points. In order to stop short of these tipping points, the 2020s must see the fastest economic transition in history. This book demonstrates how societies are reaching positive tipping points that make this transition possible: groups such as Extinction Rebellion and the schoolchildren led by Greta Thunberg demand political action; countries are committing to eliminating greenhouse gas emissions; and one tipping point has even already passed - the price of clean energy has dropped below that of fossil fuels. The story is accompanied by unique images of Earth produced by Globaia, the world's leading visualizers of human impact.

Escape Everything! Robert Wringham 2016-01-28 We are all trapped by modern life. Trapped! Trapped by work, consumerism, stress, debt, isolationism and general unhappiness. We will each spend an average of 87,000 hours at work before we die. We will spend another 5,000 hours getting to and from work and countless more preparing for work. Worrying about work. Recovering from work. The majority of us hate our jobs. But without work, we can't buy all the things we've been told we should want and need, so around we go... Through the pages of New Escapologist magazine, Robert Wringham has been studiously examining the traps of modern life, questioning where our commitment to them stems from and why we are so unable to break free. Taking inspiration from the great Escapologist Harry Houdini - who escaped from jail cells, straitjackets, and even the innards of a dead whale - Wringham applies Houdini's feats as a metaphor for real life, proposing the principle of Escapology as a way to cut loose our shackles. Become a modern-day Escapologist and freedom and happiness might be possible after all.

Hello Goodbye Emily Chenoweth 2009-05-05 In a single week, a family leaves behind its past and a daughter awakens to the future in Emily Chenoweth's intimate and beautifully crafted debut novel. In the winter of 1990, Helen Hansen-counselor, wife, and mother in the prime of her life-is diagnosed with an inoperable brain tumor. The following August, Helen, her husband, Elliott, and their daughter, Abby, a freshman in college, take a trip to northern New Hampshire, where Helen will be able to say goodbye to a lifetime of friends. Ensnared in a historic resort in the White Mountains-a place where afternoon cocktails are served on the veranda and men are expected to wear jackets after six-the Hansens and their guests must improvise their own rituals of remembrance and reconnection. For Elliott, the trip is a parting gift to his beloved wife, as well as some needed respite from the caretaking duties that have become his main work. For Helen and the procession of old friends who come to pay their respects, the days offer a poignant celebration of a dear, too-brief life. And for Abby, still unaware that her mother's cancer is terminal, the week brings a surprising conflict between loyalty and desire as, drawn by the youthful, spirited hotel staff, she finds herself caught between the affections of two very different young men. Heartbreaking and luminous, Hello Goodbye deftly explores a family's struggle with love and loss, as a summer vacation becomes an occasion for awakening rather than farewell, and life inevitably blossoms in the face of death.

Hello, Goodbye Emily Brewin 2017-06-28 May Callaghan is seventeen years old and on her own. At least that's how it feels. Her devoutly religious mother and her gentle but damaged father are fighting, and May's boyfriend, Sam, has left their rural hometown for Melbourne without so much as a backward glance. When May lies to her parents and takes the train to visit Sam at his shared house in Carlton, her world opens wide in glorious complexity. She is introduced to his housemates, Clancy, an indigenous university student, and Ruby, a wild bohemian. her father, and the peace movement in the city has a profound effect on her. For a while, May's future burns bright. But then it begins to unravel, and something happens to her that will change her life forever.

The Comeback Season Jennifer E. Smith 2010-02-23 Baseball brings them together—but will his secret keep them apart? Find out in this heartbreakingly beautiful novel from Jennifer E. Smith, author of *The Statistical Probability of Love at First Sight*. The last place Ryan Walsh should be this afternoon is on a train heading to Wrigley Field. She should be in class, enduring yet another miserable day of her first year of high school. But for once, Ryan isn't thinking about what she should be doing. She's not worried about her lack of friends, or her suffering math grade, or how it's been five whole years since the last time she was really and truly happy. Because she's finally returning to the place that her father loved, where the two of them spent so many afternoons cheering on their team. And on this—the fifth anniversary of his death—it feels like there's nowhere else in the world she should be. Ryan is once again filled with hope as she makes her way to the game. Good luck is often hard to come by at a place like Wrigley Field, but it's on this day that she meets Nick, the new kid from her school, who seems to love the Cubs nearly as much as she does. But Nick carries with him a secret that makes Ryan wonder if anyone can ever really escape their past, or believe in the promise of those reassuring words: "Wait till next year." Is it too much for Ryan to hope that this year, this season, might be her comeback season?

The Creature of Habit Jennifer E. Smith 2021-11-09 A story for creatures of habit big and small who might be surprised by the joy of trying something new. On the island of Habit, there lives a very big creature with big teeth, big eyes, and very big feet. Every day the creature does the exact same things in the exact same order. He gets up in the morning, eats three pineapples and two bananas, collects shells, says hello to the fish, rocks, trees, and crabs of the island before he eats three more pineapples and two bananas, and finally goes to bed. It is exactly the way the big creature likes it. That is, until a small boat carrying a very small creature with small teeth, small eyes, and very, very small feet arrives on the island. At first the big creature is excited to show the little creature around and explain how things are done on the island, but the small creature has his own ideas. He does not like pineapples or bananas, but he does like coconuts. Instead of saying hello to the fish, he swims with them. And instead of collecting shells, he collects...well, everything else. Also, the little creature does something different every day--it's madness, thinks the big creature. Can these two creatures learn to appreciate each other? Is the island big enough for both of them? Told with heart and humor, this is a story about being open to new ways of doing things.
