The Duality of Being Susan Nicholas, MD 2018-10-24 The Duality of Being details my life and the convoluted journey I made into higher realms of consciousness through my out-of-body travels. In this book, I will share with you the perspectives I've gained that have improved my quality of life, decisions, and relationships. Each of us has the innate ability to separate our life energy from our physical body and travel into faraway dimensions. Many who have experienced multidimensional travel have had a near-death experience that led to this life-changing phenomenon. Others, like myself, have for many years traveled spontaneously into distant realms and this book details the many discoveries. Though this type of energetic travel cannot be measured or assessed with current scientific tools, it is as real an experience as traveling by airplane to visit coveted locations around the world. If my experience is any indication, multidimensional travel is available to us all and offers us a gateway into higher or expanded levels of consciousness. True consciousness comes from the expanded awareness that you are infinitely more than your physical body and that reality is a concept far beyond our physical world.

The Healing Power from God Dan Swan 2014-06-24 In this stimulating how-to book, a scientist Dr. Dan Swan (D.Engr.) provides an answer to one of life's most important questions, "How in the world does one find miracles?" When a miracle occurred in his life in 1994 at a time when he desperately needed it. This miracle caused a series of revelations that ultimately led him down a spiritual path, completely changing his busy life, his scientific mindset and the way he viewed this chaotic world. Taking the reader on a fascinating tour

of his real-life experience, Dr. Swan explains how he began his spiritual journey by learning hands-on energy healing in order to help save his father who had suffered a major stroke. Through his real-life experience as an energy healer, using the healing power from God, he found that miracles happened to patients who were ordinary people like you and him. He witnessed that miracles do happen many times to people who are in desperate need. From his experience, he shows in this book that anyone can become an energy healer and be able to heal loved ones and family members. People of all religious faiths as well as non-believers can transform their physical bodies to Light bodies using the healing power from God. In fact, all major religions including Christianity, Hinduism, and Buddhism, encourage people to make the higher transformation to a union with God or Universal Consciousness. And, he shows the reader step-by-step of how to do it. Using Dr. Swan's method, the spiritual journey can be completed in a short period of time. He successfully merges new scientific findings with ancient wisdom, resulting in an easy-to-understand guide for someone at any spiritual level. Readers will learn from leading quantum physicists and medical doctors, as well as spiritual teachers from around the world. Dr. Swan's instructions set the stage for a spiritual voyage of self-discovery. His book is a timely guide for the year 2012 and beyond, preparing all of us for the age of the New Earth in the near future.

The Human Body of Light Mitchell Earl Gibson MD 2014-03-22 According to legend, a number of ancient spiritual masters have dissolved their physical bodies into pure energy. Most used special exercises and techniques that had to be applied over a period of years, the results of which were the total transformation of the physical form into a form of self-sustaining light energy. The new light form was immortal and indestructible. Somehow, these legends have not made it into our Western lexicon. The Body of Light represents a complete and total and radical transformation of one's status of being, a rediscovery of what was primordially present, and this condition is permanent. It is Awareness itself and is dependent on nothing else. This may be compared to the various Christian notions of transfiguration, resurrection, and ascension. There exists in history many examples of the successful completion of this process. Even in recent years there have been a number of Tibetan Lamas, both Buddhist and Bon-po, who attained realization of the Rainbow Body ('ja-lus-pa) at the end of their lives and some of these occurrences were witnessed by Chinese

Communist officials. In this book *The Human Body of Light*, board-certified psychiatrist and author Dr. Mitchell Earl Gibson explores this fascinating arena of human potential. This book is designed to explore one question; is it possible for the human body to evolve into pure energy? Through meticulous research and one-of-a-kind insightful observations, *The Human Body of Light* explores the real phenomenon of an extraordinary type of human evolution. The realizations that accompany this knowledge has the potential to change our understanding of what it means to be human.

Progressive Creation and the Struggles of Humanity in the Bible Zoltan Dornyei 2018-03-22 Why does the Christian walk often feel like an ongoing struggle and why does God's creation include imperfection, let alone forces that are intent on thwarting God's creative work? In seeking a response to these questions, this book argues that the biblical accounts describe creation in terms of a progressive transformation process whereby the initially incomplete created order will reach perfection only in the fulfillment of new creation. The following discussion then outlines a comprehensive framework for the biblical theology of humanity's struggles, centered on three key themes: corporeal temptation, deficient social structures, and the much-debated notion of spiritual warfare. The book presents an overarching canonical narrative that threads together a series of diverse biblical topics, from Job's temptation to the Atonement. The final part surveys biblical teaching on how human conduct can be aligned with God's creative purpose, and discusses three "assignments" from Jesus to believers: to celebrate the Eucharist, to pray the Lord's Prayer, and to fulfill the Great Commission.

Healing With Light Language Green Leatherr 2021-07-25 Have you ever really listened to the way you talk to people? Have you truly listened to the way you speak? What is it like? Whenever I hear my voice, I feel strange. Is that really me? Recorded voices are even weirder, like disembodied little pieces of me. My voice sounds like it is coming from afar. But language has never really been limited by voice. It is a medium of communication that connects you to someone else. Speech can be constrained by culture, but it can also be free to transform into something else. We have sign language, Braille, and other forms that transcend different types of ability. However, nothing is like the light language. Light language is a means of communication that is more spiritual than intellectual. It connects you to a Higher Being or the Universe instead of merely connecting you to another human. This book will help you: Define and understand light language Use light language to heal various types of conditions Ascend in wisdom and the spirit Pass on your knowledge to others who need it

10 Cosmic Commandments Bodil Storm 2017-09-18 "THE VISIONARY", said the voice loud and clear. "Then who is the visionary?" I asked. "I am the messenger who speaks to your Higher Self!" the voice answered. The voice which amazed Bodil Storm an early winter morning, proves to be Horus, the Sun God in Egyptian

mythology. Bodil grabs for pencil and paper and starts to ask – and Horus answers... The contact develops into a conversation where universal laws and important principles in earth's and human's evolution are explained in a direct and clear way. Horus gives us important knowledge of the multi-dimensional universe where the key-word is Equilibrium, and how we humans need to establish this on all levels in order to develop into a new and golden age which is approaching... 10 Cosmic Commandments is an important book giving us a new perspective of natural laws and how we can use them to guide us into the future. Bodil Storm describes how each human has a source of inner wisdom, which can be used to create a positive future for him/herself and others. It also focuses on the importance of establishing balance between masculine and feminine energies, in order to live in harmony with Mother Earth and The Universe.

The Third Path Bud Carroll 2013-08-01 "When I finished reading this book, all I could say was WOW! What a stunning piece of literary work... It is concise, brilliantly written, backed by scientific findings, with clear human logic and intelligence. If this doesn't awaken the masses to delve into who and what they truly are, I can't imagine what will." ~ Jerry Issa, teacher of metaphysics, Trenton, Michigan This book will change your life if you let it. If we are accidental beings on a remote planet in a vast universe, existing for merely a blip in cosmic time, what's the point of living at all? Until we learn life is too significant to be a short-lived brilliance that rises out of nothing and ends in nothing, we will continue to live out our lives in, what Thoreau saw as, quiet desperation. We sense the materialistic wall when we ask the question, "Is that all there is?" Without resorting to miracles or magic, this book provides compelling evidence of life beyond the physical world by logically investigating the limitations of matter in the universe, by examining the gaps in scientific theories and by analyzing what the mystics already know about a spiritual existence. It takes a dedicated seeker with no preconceived ideas and no intent on arriving to see beyond the materialistic wall. This book is intended to expand your awareness of life here and hereafter, hopefully providing the spark that will start you on your own personal pilgrimage. The mystics tell us we will be guided to the next step along our spiritual path when we are ready. Are you ready? AWARENESS: The following might be the thoughts of those at different levels of awareness as they walk through a rose garden. I want - I wonder how much I could get for these roses. I believe - God created roses when He created the world and everything in it. I doubt - Roses evolved from wild flowering shrubs, but most garden varieties are hybrids. I seek - How could anything as beautiful as a rose happen purely by chance? I know - Roses, like all life on Earth, are physical manifestations of spirit.

Hands of Light Barbara Ann Brennan 2011-03-23 With the clarity of a physicist and the compassion of a gifted healer with fifteen years of professional experience observing 5,000 clients and students, Barbara Ann Brennan presents the first in-depth study of the human energy field for people who seek happiness, health and their full potential. Our physical bodies exist within a larger "body," a human energy field or aura, which is the vehicle through which we create our experience of reality, including health and illness. It is through this energy field that we have the power to heal ourselves. This energy body -- only recently verified by scientists, but long known to healers and mystics -- is the starting point of all illness. Here, our most powerful and profound human interactions take place, the precursor and healer of all physiological and emotional disturbances. Hands of Light is your guide to a new wholeness. It offers: • A new paradigm for the human, in health, relationship, and disease • An understanding of how the human energy field looks, functions, is disturbed, healed, and interacts with friends and lovers. • Training in the ability to see and interpret auras • Medically verified case studies of healing people from all walks of life with a variety of illnesses. • Guidelines for healing the self and others. • The author's personal and intriguing life adventure which gives us a model for growth, courage and possibilities for expanded consciousness

Light Pollution as a New Risk Factor for Human Breast and Prostate Cancers Abraham Haim 2013-06-03 Humans are diurnal organisms whose biological clock and temporal organization depend on natural light/dark cycles. Changes in the photoperiod are a signal for seasonal acclimatization of physiological and immune systems as well as behavioral patterns. The invention of electrical light bulbs created more opportunities for work and leisure. However, exposure to artificial light at night (LAN) affects our biological clock, and suppresses pineal melatonin (MLT) production. Among its other properties, MLT is an antioncogenic agent, and therefore its suppression increases the risks of developing breast and prostate cancers (BC&PC). To the best of our knowledge, this book is the first to address the linkage between light pollution and BC&PC in humans. It explains several state-of-the-art theories, linking light pollution with BC&PC. It also illustrates

research hypotheses about health effects of light pollution using the results of animal models and population-based studies.

Living in the Heart Drunvalo Melchizedek 2012-04-27 Long ago we humans used a form of communication and sensing that did not involve the brain in any way; rather, it came from a sacred place within our hearts. What good would it do to find this place again? This is a book of remembering. You have always had this place within your heart, and it is still there now. It existed before creation, and it will exist even after the last star shines its brilliant light. At night when you enter your dreams, you leave your mind and enter the sacred space of your heart. But do you remember? Or do you only remember the dream? Why am I telling you about this "something" that is fading from our memories? What good would it do to find this place again in a world where the greatest religion is science and the logic of the mind? Don't I know where emotions and feelings are second-class citizens? Yes, I do. But my teachers have asked me to remind you who you really are. You are more than just a human being, much more. For within your heart is a place, a sacred place, where the world can literally be remade through conscious cocreation. If you really want peace of spirit and if you want to return home, I invite you into the beauty of your own heart. With your permission, I will show you what has been shown to me. I will give you the exact instructions to the pathway into your heart where you and God are intimately one. It is your choice. But I must warn you: Within this experience resides great responsibility. Life knows when a spirit is born to the higher worlds, and life will use you as all the great masters who have ever lived have been used. If you read this book and do the meditation and then expect nothing to change in your life, you may get caught spiritually napping. Once you have entered the light of the great darkness, your life will change -- eventually, you will remember who you really are.

Human Rights and the Body Dr Annabelle Mooney 2014-09-28 Human Rights and the Body is a response to the crisis in human rights, to the very real concern that without a secure foundation for the concept of human rights, their very existence is threatened. While there has been consideration of the discourses of human rights and the way in which the body is written upon, research in linguistics has not yet been fully brought to bear on either human rights or the body. Drawing on legal concepts and aspects of the law of human rights, Mooney aims to provide a universally defensible set of human rights and a foundation, or rather a frame, for them. She argues that the proper frames for human rights are firstly the human body, seen as an index reliant on the natural world, secondly the globe and finally, language. These three frames generate rights to food, water, sleep and shelter, environmental protection and a right against dehumanization. This book is essential reading for researchers and graduate students in the fields of human rights and semiotics of law.

The Light of Egypt Thomas H. Burgoyne 2021-11-08 The Light of Egypt: The Science of the Soul and the

Stars is a late 19th-century work of occultism by Thomas H. Burgoyne. It explores both the soul and nature of man, as well as his relation to the stars and planets through Burgoyne's study of astrology. Volume I of The Light of Egypt (included here) is divided into two parts. The first, "The Science of the Soul," explores the realms of spirit, matter, and the originals of physical life. It also explains the Brotherhood of Light's views of reincarnation, karma, and mediumship. Unlike the common idea of reincarnation as a literal rebirth of a soul into different bodies here on Earth, Burgoyne argues that this would be a stalling of man's progress. Instead, we are reborn into a "higher and more perfect form of life." In part two, Burgoyne goes into more detail regarding the science of astronomy. This science, he explains, consists of two parts. One is astronomy, which "...deals with the suns, moons, planets and stars, and strictly confines its researches to a knowledge of their size, distance and motion." The other he calls "correspondences," which explore the "...spiritual and physical influences of the same bodies; first upon each other, then upon the earth, and lastly upon the organism of man." Like other occultist writers and thinkers, Burgoyne views man as a microcosm of the greater universe. In the zodiac, we find each sign to be associated with a section of the human body. Each also has its own unique characteristics, which he describes from the symbolic, Kabbalistic, intellectual, and physical views. Not only date, but birth time, and birth location, determine man's physical and mental traits, as well as their fortunes. Burgoyne would not have been impressed with modern horoscopes that lump all people with the same zodiac sign together. The Light of Egypt is a work to be studied over time by those searching for wisdom and truth. It was described by Elbert Benjamine, the founder of the Church of Light (successor to the Hermetic Brotherhood of Luxor), as "the greatest spiritual work of the 19th-century."
