The Zona Nathan L. Yocum 2012-02 It started with the Storms. The world got too hot too fast. The weather wrecked Hell on man's shiny, pretty civilization. With the heat and wet came bugs, with bugs came new diseases, and man's numbers and sanity dwindled. The survivors reformed governments like petty shadows of the world's old empires. They sought answers and justifications, they sought redemption for what they perceived as man's holy smiting. Welcome to the Arizona Reformed Theocracy, otherwise called The Zona. Here the Church rules with power absolute. The laws are simple, all sin is punished swiftly. Preachers enforce the Church's words like old West lawmen. But what happens when a Preacher refuses to kill? What happens when men of honor take a stand against their rulers?

Ethics in Small and Medium Sized Enterprises Laura Spence 2010-10-01 This book is the first of its kind – a global overview of extant research on ethics in small and medium sized enterprises. While vast amounts of corporate money, government policy and media time are directed at the social and ethical activities of large corporations, small businesses don't generally attract the spotlight. This is wildly inappropriate, however, since upward of 90% of private businesses are

small or medium sized. This book goes some way to helping us understand the social and ethical contribution of this majority organizational form. The first section of the book is a global round-up of research on ethics in small and medium sized enterprises from major regions of the world. In the second section smaller scale research projects from a variety of countries present both empirical and theoretical advances in the area. Anyone with an interest in ethics and small and medium sized enterprises should find this an inspiring book which paves the way for future research.

Service Business Costing Markus B. Baum 2012-08-17 Service firms have high overhead costs which are difficult to assign to individual services. To bring transparency to their value chain, they need costing approaches that help them find their own improvements. Markus B. Baum explores current theory and practice of value chain approaches and cost accounting to develop a costing approach with a suitable instrument for the allocation of fixed and overhead costs for a service firm. He describes the service business costing (SBC) approach. This hybrid-costing model has a hierarchical structure in terms of consolidation and allocates cost and revenues on the lowest hierarchical level possible to ensure that all costs and income are assigned to activities from which they originated.

The Cambridge Handbook of Compliance Benjamin van Rooij 2021-05-20 Compliance has become key to our contemporary markets, societies, and modes of governance across a variety of public and private domains. While this has stimulated a rich body of empirical and practical expertise on compliance, thus far, there has been no comprehensive understanding of what compliance is or how it influences various fields and sectors. The academic knowledge of compliance has remained siloed along different disciplinary domains, regulatory and legal spheres, and mechanisms and interventions. This handbook bridges these divides to provide the first one-stop overview of what compliance is, how we can best study it, and the core mechanisms that shape it. Written by leading experts, chapters offer perspectives from across law, regulatory studies, management science, criminology, economics, sociology, and psychology. This volume is the definitive and comprehensive account of compliance.

Introduction to Psychology Charles Stangor 2014 "This book is designed to help students organize their thinking about psychology at a conceptual level. The focus on behaviour and

empiricism has produced a text that is better organized, has fewer chapters, and is somewhat shorter than many of the leading books. The beginning of each section includes learning objectives; throughout the body of each section are key terms in bold followed by their definitions in italics; key takeaways, and exercises and critical thinking activities end each section"--BCcampus website.
